4 refs.

Order from OTS or SLA \$4.60 63-14043

Trans. of Ogneupory (USSR) 1936, v. 4, p. 638-649.

DESCRIPTORS: *Glass, *Quartz, *Crystallization,
Sand, Temperature, Materials, Crystal structure.

Factors were investigated which influence the crystallization of quartz glass. Experiments were undertaken about the crystallization of opaque quartz glass made from sands of various origins, and also of transparent quartz glass, and this way were found out the influences exerted by various additions and by the temperature of heating, upon the degree of crystallization.
